Sean Oplinger

Local web & automation help for pet businesses

Fewer missed calls, easier bookings, and a website you can update yourself.

What I offer

A modern website you can edit yourself

Looks great on phones. Change hours, prices, announcements, and coupons that expire on their own. Customers can request a booking online and upload vaccine records.

Missed-call text-back

Can't get to the phone? The caller automatically gets a friendly text from you, so they don't just call the next place on the list.

Automatic review requests

After a stay or appointment, happy customers get a quick, polite request to leave a Google review. More reviews, no extra work for you.

Try it free for 30 days

Any plan, no contract, no cost. Then keep your plan or walk away, no charge.

Simple monthly pricing

Starter

$49/mo

Website with domain and hosting, Google profile tidy-up, and small edits

Recommended

Plus

$109/mo

Everything in Starter, plus missed-call text-back, review requests, and booking reminders

Pro

$159/mo

Everything in Plus, plus vaccine reminders, grooming rebook texts, holiday waitlist, and pickup texts

Setup $199, billed only if you stay after the pilot (50% off for early clients). Works with Gingr and other kennel software. No contracts, cancel anytime.

Sample site for a demo pet lodge

Why a local person?

I live nearby in Sanatoga. No call centers or ticket systems: call or text me and I'll come by in person to help.
